## A New Day A New Way

Solving the issues and challenges in the greater Memphis community is not an easy task. The negative behaviors that influence our young people are many, but we can do something about it. **Today is A NEW DAY!**

**Mission:** To encourage our youth to graduate high school! We will assist them with preparation for higher education (applying for scholarships, financial aid, etc.) and/or successful careers.

**Purpose:** To provide a support system for our youth with at-risk behavioral patterns by collaborating with other agencies to bridge the gap between education and rehabilitation. **How will we do this?** We will work with each person to develop an Individualized plan of success! This plan will focus on the individual and help to map out their future goals!

We provide a pathway of opportunities to equip our youth with the skills and knowledge necessary to have a successful future.

### Our Goals

To empower and equip each individual with an effective and efficient individualized plan of success

To create, promote and encourage positive behaviors and attitudes

To assist parents and educators in efforts to teach values in order to identify new and better strategies for success

To build and strengthen relationships at home and in the community

### Our Programs

Individual counseling

Group counseling

Career counseling

Job readiness

Mentoring programs

### Our Collaborations

In order to meet the unique needs of those we serve, we believe that there is power in collaborating with other organizations and entities. A New Day intends to tap into our community's vast resources by connecting young people with other local agencies to help give them a brighter future.

We are striving, on a regular basis, to collaborate with other agencies. One of our key collaborations includes the Hickory Hill Community Center. And, many more are currently being developed.

### Menu of Success

Through our programs, A New Day helps enrich the lives of our youth and encourage them to reach their full potential. We want to create an appetite for success by offering a variety of choices from our "Menu"

#### What Do U Have A Taste 4 ?
